Introduction: In working for the realisation of our objectives, we have already started to act as a pressure group at the state/national level along with our partners and network members to adopt quality education and a common perspective in the issue of education. We undertake the task of perspective building of our partner organizations and also our network members through a series of orientation workshops.

Area of Perspective Building: Child Rights is the main key area of our perspective building and we focus on Child Education for establishing Child Rights. We look forward to establish a society where education is based on social justice and equity. Every livelihood issue is included within the purview of our perspective building exercise.
Stakeholders: Our partner organizations, resource persons, resource organizations, members of our district network, members of block level network, CBOs around our networking area, PRI and general people also.
